

## Green NBR Rubber Sheet

**Color:** Green

**Finish:** both sides smooth

**Temperature range:** -25°C to +80°C

**Features:** NBR provides good resistance to most types of oil such as mineral, animal and vegetable oil, normal fuels like gasoline, diesel and light heating oils, mixture of alcohol and gasoline.

**Application:** used in gaskets and other products in which oil resistance is required.

		Test method
Specific gravity grs/cm <sup>3</sup>	1.45	HG/T2728-2008
Hardness shore A +/-5°	70	GB/T531-1999
Tensile strength Mpa	6	GB/T528-1998
Elongation at break %	250	GB/T528-1998
Compression set at 70°C for 22 hours %	50	GB/T7759-1996
Polymer content %	50	
Change in weight at 23°C/72 hours %	-0.77	Astm oil No.1
Change in weight at 23°C/72 hours %		Astm oil No.2
Change in weight at 23°C/72 hours %	1.83	Astm oil No.3
