

Solenoid Valve 12VDC

This solenoid valve is fit for a large field of applications.

Can be used with liquids and gasses.

TECHNICAL INFORMATION

Material	:	Messing
Available applications	:	LPG (Liquefied petroleum gas) , CNG (Compressed Natural gas) Petrol en Diesel
Max working pressure	:	0,15 MPa (1,5 Bar) marine applications; 0,70 MPa (7,0 Bar) petrol en diesel 3,00 MPa (30 Bar) LPG en CNG
Working temperature	:	-40 C tot en met 120 °C
Approval	:	ECE R67-01, ECE R110, UL standard 429 ECE R10-03

Flow rate with air. Varying pressure at fixed ambient temperature

: 16.500 nl / h at 1 bar (nl = normal litres / hour)

: 26.500 nl / h at 2 bar (nl = normal litres / hour)

Coil armature with holes.

: $\varnothing 5,5$ mm - $\varnothing 6,5$ mm
